DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 4, 7, 8, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Denison et al #4,557,332. Denison et al discloses a method for adding upward force to a marine riser comprising attaching at least one buoyancy module 15, 15A to a marine riser and inflating the buoyancy module with a buoyant medium. The buoyancy module may be ballasted by introducing a liquid composition. Furthermore, Denison discloses at col. 1, lines 59-62, that such buoyancy modules may be selectively inflated.

Allowable Subject Matter

3. Claims 3, 5, 6, and 10-25 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 4 and 7-9 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
